OUTCOMES. PERFORMANCE. UTILIZATION.

POWERED BY  Hanger

Welcome to Your OnPoint Buying Guide

OnPoint, Hanger's product recommendation program, is designed to empower clinicians to make the best choice for their patients.

It reflects our commitment to excellence and precision in product selection, ensuring you can easily find the best options available.

Look for the Hanger Ecosystem ribbon. Every purchase fuels our mission to Empower Human Potential Together!

Proven for Better Outcomes

OnPoint Preferred features products that are evaluated for their associated outcomes, performance, and utilization and supported by Clinical & Scientific Affairs (CSA). They represent the standard of quality and effectiveness, ensuring our clinicians have access to the best options available.

LOW IMPACT. HIGH PERFORMANCE.

At College Park, we focus on high-quality innovation for users of all activity levels. These prosthetic feet are built for low-impact users who value comfort, flexibility, and excellent ground contact. With lightweight, low-profile designs, the Odyssey K2 and Celsus feet are built to move naturally with you.

WalkOn family. Designed for motion. Built for results.

The **WalkOn** AFO family blends clinical precision with everyday performance. Each model is crafted from durable carbon fiber, delivering smooth rollover, symmetry, and energy return to help patients walk naturally and confidently. With quick fitting, trimmable footplates, and a full range of medial and lateral options, **WalkOn** simplifies your workflow while enhancing patient outcomes.

From first steps in rehab to long-term independence. WalkOn supports progress every step of the way.

Shop OnPoint Preferred Sprout3D™ and SMO

Surestep Sprout3D™

The Surestep Sprout3D™ Cranial Remolding Orthosis (CRO) is transforming cranial care with a cutting-edge 3D design that delivers precision, comfort, and efficiency.

Developed by leading cranial specialists, Sprout3D leverages over 10,000 data points, decades of expertise, and extensive 3D fabrication resources to ensure the best possible patient outcomes.

PRODUCT SPECIFICATIONS:

- 3D Printed from PA12 Nylon Filament
- MP33 Liner – ¼"
- Superior Opening Options: Plagiocephaly (Right or Left), Brachycephaly, Standard (85 mm)

Surestep SMOs

Outperforms traditional bracing for the low tone patient population in addressing medial/lateral instability in the foot and ankle.

SMOs can be modified:

- for toe walking
- with a heel lift
- for clubfoot
- for metatarsus adductus (reverse trim lines)
- with an open heel

Newport Hip Orthoses

Designed for Comfort. Engineered for Control.

Orthomerica's Newport Hip Management Systems are developed to provide superior comfort and functional control for your patients. With the **Newport 3**, **Newport 4**, and **Newport ULTRA**, clinicians can choose from a range of innovative solutions tailored to meet diverse orthopedic and rehabilitation needs.

Key Benefits of Newport Ultra

- ✓ No tools required for brace adjustments
- ✓ Locking screw prevents unauthorized flexion/extension adjustments
- ✓ Protects the hip joint capsule with controlled, limited range of motion
- ✓ Ergonomic design promotes optimal comfort and patient compliance
- ✓ Virtual joint easily adjusts flexion, extension, adduction, and abduction
- ✓ Provides proprioceptive reminder for safe movement
- ✓ Universal right/left configuration
- ✓ Easily customized for an exact fit — one size fits most
- ✓ Laterally placed abduction paddle maintains femoral head positioning
- ✓ Compression belt with pull tabs anchors hip joint and thigh cuff for optimal alignment
- ✓ Dual abduction/adduction joint mechanisms accommodate hip development
